**Subject: Infant Food Packages – Primary Contract Infant Formula**

---

Effective Date: September 1, 2005

Revised from: May 1, 2005

**Policy:** For cost containment purposes the SA has a contract with a nutritional company to receive a monetary rebate for each can of their milk or soy-based formula purchased by the WIC program. Primary contract infant formula refers to the specific infant formulas for which the State Agency has awarded a rebate contract to a manufacturer in response to a bid solicitation. Local Agencies must provide a primary contract infant formula unless a non-contract infant formula or a special formula is prescribed by a health care professional (see policies FCI: 02.01.03 Infant Food Packages-Non-Contract Infant Formulas and FCI: 02.01.05 Infant Food Packages-Special Formula).

1. The current primary contract infant formulas are:
  - a. Enfamil Lipil w/ Iron,
  - b. Enfamil w/ Iron,
  - c. Enfamil Gentlease Lipil,
  - d. Enfamil Lactofree Lipil,
  - e. Prosobee Lipil,
  - f. Prosobee.
2. Enfamil Lipil w/ Iron powder is the default infant food package for non-breastfed infants.
3. A health care professional's request is not required to change a participant from one primary contract infant formula to another.
4. All of the primary contract infant formulas are kosher products and appropriate for individuals following religious dietary practices.
5. Infants who transfer in from another state on a milk or soy based formula must use the primary contract infant formula unless the health care professional requests a special formula.

**Reference: CFR §246.10**

**Procedure:**

1. For non-breastfed infants prescribe an age and situation appropriate food package containing a primary contract infant formula. (see tables – Milk-Based and Soy-Based Primary Contract Infant Formulas).
  - a. The caregiver may request either the powdered or the concentrated liquid form.
  - b. If ready-to-feed formula is requested, document the reason in the client's KWIC record. Contact the SA for requests that do not list one of the approved reasons for ready-to-feed formula. (see Policy: FCI 02.01.00 – Infant Food Packages)

---

**Subject: Infant Food Packages – Primary Contract Infant Formula**

---

- c. If single serving juice boxes are selected, document the reason in the client's KWIC record.
- d. If an expanded check set is selected, document the reason in the client's KWIC record.
